*there is a Palace.*

# Celebrate your day...

Every couple is unique. Every wedding should be too. Which is why Palace Resorts does destination weddings like no one else. With countless breathtaking settings at our all-inclusive properties in Mexico and Jamaica, if you can dream it, our expert wedding specialists can help make it a reality. Just bring your beautiful selves and we'll take care of the rest.

## **ENDLESS BEACHES, UNRIVALED VALUE**

Did you know that a wedding at one of our award-winning resorts is an incredible value? It is, especially when guests pay for their own transportation and accommodations. What's even better is that you can take advantage of complimentary benefits, as much as \$30,000 in value, good for free rooms, free cocktail parties, free receptions, and so much more. And the longer your guestlist, the more complimentary benefits. For value and romance, nothing even comes close.

## **WE KNOW ONE SIZE DOESN'T FIT ALL**

Maybe you're considering eloping, exchanging vows with an ocean panorama as your backdrop. Perhaps you envision a very small wedding with only your closest friends and relatives. Or, maybe not everyone can make it to your destination wedding, but you still want them to attend virtually. No matter the size, at Palace Resorts we'll help create the perfect celebration of your love.
